

PROTECTING YOUR WORKPLACE FROM COVID-19.

SIGNAGE FOR YOUR BUSINESS

The first line of defense against the COVID-19 spread begins with visual communication. Eye-level messaging along with ground-level stickers ensures that everyone is being reminded to keep a healthy distance. Easily add your logo or other branded graphic elements.

- Easy to install, no hardware required
- Customizable to your needs
- Portable solution that can be easily relocated
- Easy to clean and disinfect

We know that critical communication in such an ever-changing crisis can be challenging, but we stand ready to help any way that we can.

OPEN FOR BUSINESS SIGNS

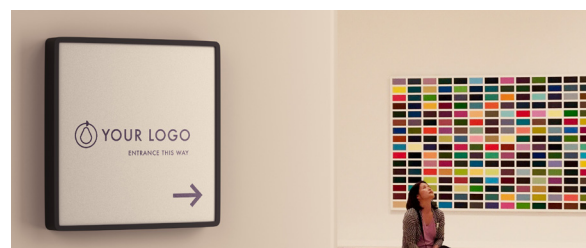

Keep customers aware of your current operating status, services and hours with attention-grabbing signs and banners to be placed around your building

SAFETY AND WAYFINDING SIGNS

Let visitors know how to get to you without any safety concerns.

Direct them to non-infected areas, show them where to pick up products and keep hand washing and other tips top-of-mind.

SOCIAL DISTANCING SIGNS

Use floor graphics and other signs to remind everyone to maintain a safe perimeter around themselves.

FLOOR GRAPHICS

Select from various custom floor graphics including self-adhesive, permanent or removable types for indoor and outdoor areas.

"Non-skid" and therefore ideal for use in stores, supermarkets, big-box retailers, schools, gyms, factories, warehouses, restaurants and elsewhere, they're applicable to concrete sidewalks and driveways, as well as cement, tile, wood and even marble floors.

Want options?

Choose from various sizes, colors and shapes, along with custom designs featuring your brand or organization's logo, graphics and message.

A promotional graphic for a 'WORKPLACE SIGNAGE PACKAGE'. It features a large diamond-shaped sign with a black border and white background, with the text 'KEEP 6 FEET APART' in large red letters. The sign is surrounded by four smaller signs: two 'SOCIAL DISTANCING' signs with red arrows and virus icons, a 'WASH YOUR HANDS' sign with a blue background and white text, and a 'REMINDER' sign with a blue background and white text. A yellow price tag in the top left corner reads '\$35.00'. The text 'FOR ORDERS EMAIL INFO@HUMDINGERENTERPRISE.COM' is at the bottom.

PORTABLE HAND SANITIZER STATION

with Built-In Drip Well & Custom Branding

ABOUT THIS PRODUCT

This made-to-order hand sanitizer station with custom graphics will provide a unique hygiene experience for your school, office, fitness center or retail shop. Minimal assembly is required for this unit and the lightweight design makes it easy to move from place to place. This re-fillable hand sanitizer advertising station has double-sided custom graphics making your branding message visible from all angles. Passersby can quickly disinfect with the motion-sensor feature of this floor-standing dispenser. You are not limited to any one design as you can easily purchase replacement graphics for this unit to help your company stay on-brand for each changing season, while also enabling a healthier environment! This motion-sensor hand sanitizer advertising station conveniently has a built-in well for any excess drip, keeping messes to a minimum with this floor-standing dispenser!

One of the most critical factors in stopping the spread of viruses is frequently washing and sanitizing of hands. By providing sanitation options as part of your first impression you're communicating to your staff and guests reassurance that you're protecting them. Create confidence in visiting your establishment with a wide variety of portable sanitation solutions.

- Communicate your Commitment to Cleanliness and Sanitation

SANITIZATION AND DISINFECTION

More now than ever, ensuring the safety and health of employees and clients is a #1 priority. A clean, healthy workspace plays a significant role in achieving that goal.

We are working to help businesses remain properly disinfected, and our method of disinfecting is far superior to the traditional "spray and wipe" method. The application evenly coats a surface with a disinfecting solution. The applicator discharges the disinfecting solution at 30-40 microns as it exits the nozzle, allowing the solution to stick to all surfaces.

Our team will spray using a product that has a kill approval on the coronavirus. The sprayer enables us to cover far more quickly. The formula is effective against germs, viruses, and bacteria.

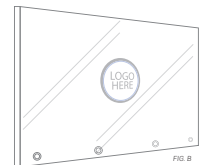

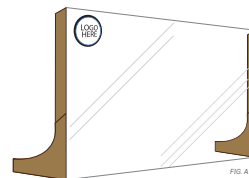

Our Disinfectant/Sanitizer/Virucide is noncorrosive, non-irritating to skin and requires no special handling instructions on its label. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization. Our disinfectant produces no harmful by-products for the environment.

This product has been pre-approved by the U.S. environment protective agency (EPA) for the use against emerging viral pathogens and can be used during the 2019 novel coronavirus

(COVID-19) outbreak. We utilize only these products that have been tested and have been proven to eliminate the following Bacteria & Viruses on hard surfaces with minimal dwell (contact) time: Influenza A (H1N1) Swine Flu, HIV Type 1, Hepatitis B, Hepatitis C, MRSA, Staphylococcus aureus, Legionella pneumophila, Aspergillus niger, Norovirus (Feline Calicivirus as surrogate), Enterobacter aerogenes, Pseudomonas aeruginosa, Escherichia coli, Salmonella enterica, Listeria monocytogenes.

This gives us the ability to eliminate a multitude of harmful organisms from hard and porous surfaces safely and effectively. Our application allows us to cover all exposed surfaces with an even coating and an Efficacy that will remain for an extended period of time

SNEEZE GUARDS AND PROTECTORS

If you're in need of a way to protect your staff and visitors, and enforce social distancing guidelines, clear acrylic protection shields from Humdinger are an ideal solution.

Our standard guards are 23.75"h x 23.75", 23.75" x 36", or 23.75" x 47.5".

Designed for your desk, counter or table area, acrylic panels can have a hole in the bottom of the front panel that makes it perfect to exchange payment or items at customer service & sales counters.

Made from durable clear acrylic, these screens are easily cleaned with soap and water. Shields can be quickly and easily assembled with a base, and don't require permanent installation or additional hardware.

Removable bases allow for easy transport and for storing the panel flat. We can also add custom messaging and graphics to your panel for more effective communication.

Give employees and guests confidence that their safety and well being is being looked after.

- Completely adaptable systems that attach to many common modular office cubicle systems
- Customized solutions for open office concepts including shared tables
- Easy to clean and disinfect

Social distancing isn't always possible when at a gaming facility, completing a financial transaction or signing in at facilities.

Need a custom size for a specific environment?
Let us know your specs for a panel to fit unique spaces.

Designed for retail, healthcare, and food service applications, this protective barrier fits most counters and doesn't require any adjustments to your existing furnishings.

Acrylic shields are also designed to accommodate credit card machines while still providing protection for employees and customers.

- Keep employees and guests safe with table and counter barrier options
- Portable solution won't damage your existing furnishings
- Easy to clean and disinfect
- Custom sizes available

These panels are more than just sneeze guards. They provide a physical barrier for workers in a variety of essential businesses, including:

- Hospitals
- Offices
- Pharmacies
- Grocery Stores
- Restaurants
- Banks
- Retail Operations
